- Important links:
 - <http://www.nationalacademies.org/peerscience>
 - www.nsf.gov/awards
- Potential applicants with questions are invited to contact the program's staff at peer@nas.edu.
- Closing date for submission January 13, 2014

USAID
FROM THE AMERICAN PEOPLE

Global Research & Innovation Fellowship Network (GRIFN)

Partnership between USAID, NSF and host-country institutions such as:

- Universities
- Research Centers
- Government Ministries
- Non-Governmental Organizations
- Private Sector

USAID
FROM THE AMERICAN PEOPLE

Who is a GRIFN Fellow?

- Graduate students – PhD and Masters from multiple disciplines
- National Science Foundation grant recipients (8,000 students who receive grant of \$130,000 for 3 years)
- Initial Countries – South Africa, Senegal, Philippines, Indonesia, India, Colombia and Brazil

USAID
FROM THE AMERICAN PEOPLE

Fellowship program is institution driven:

Fellowships may include, but aren't limited to:

- Conducting research
- Mentoring junior-level students or guest lecturing
- Assisting with science policy development
- Additional technical capacity

USAID
FROM THE AMERICAN PEOPLE

To request a Fellow

- Identify the role you would like the Fellow to fill – on-site work must be accomplishable in 2 – 12 months.
- Visit: <http://www.usaid.gov/GRIFN> - fill out Host section
- Negotiate with applicants to identify individuals who poses the requisite skill set.

USAID
FROM THE AMERICAN PEOPLE

Grand Challenges for Development

Two core tenants:

- Science and technology, when applied appropriately, can have transformational effects.
- Engaging the world in the quest for solutions is critical to instigating breakthrough progress.

USAID
FROM THE AMERICAN PEOPLE

Grand Challenges for Development

- 1) Securing Water for Food
- 2) Saving Lives at Birth
- 3) All Children Reading
- 4) Powering Agriculture
- 5) Making All Voices Count

USAID
FROM THE AMERICAN PEOPLE

SECURING
WATER
FOR FOOD:
A GRAND CHALLENGE
FOR DEVELOPMENT

Focus areas:

- 1) Improving water efficiency and reusing wastewater
- 2) Effective water capture and storage
- 3) Salinity of water supply is a major threat to food production
